

Quick Sense Motion Sensor Lights 10 LED DIY Stick-on Anywhere Battery Operated Portable Wireless Cabinet Night Stairs Step Closet Light Bar with Magnetic Strip (Cool White) (Pack of 1)

Brand	Quick Sense
Colour	Cool White
Material	Acrylonitrile Butadiene Styrene
Style	Cool White
Light fixture form	Path
Room Type	Cabinet, Closet Light, Stairs, Desk, Wardrobe
Product Dimensions	40L x 20W x 130H Millimeters
Indoor/Outdoor Usage	Indoor
Power Source	Battery Powered
Installation Type	Flush Mount

About this item

- **Intelligent Motion Sensing:** The Quick sense Motion Sensor Light boasts cutting-edge motion detection technology, instantly illuminating dark spaces when movement is detected, ensuring both convenience and safety in areas like stairs, cabinets, and closets.
- **Effortless DIY Installation:** With its DIY stick-on design and magnetic strip, this wireless light bar ensures hassle-free installation without the need for tools or complicated setups, while its sleek design seamlessly blends with any interior.
- **Eco-Friendly & Efficient:** Running on a mere 3 watts, the 10-LED light system offers an energy-efficient lighting solution, reducing environmental impact while providing bright illumination.
- **Durable Material & Longevity:** Crafted from high-quality Acrylonitrile Butadiene Styrene (ABS), the Motion Sensor Light is not only sturdy and resilient but also promises a prolonged lifespan.
- **Portable & Battery-Operated:** Designed for adaptability, the light bar is powered by 3 AAA batteries, ensuring consistent performance without dependency on power outlets, making it perfect for both fixed and on-the-go usage.
- **Motion Sensor Technology**
 - The built-in motion sensor detects movement within its range, triggering the LED lights to turn on instantly. This not only enhances convenience but also conserves battery life by only activating when needed.
- **Energy-Efficient LED**
 - The 10 LED bulbs provide bright illumination while being energy-efficient, ensuring long-lasting performance and minimizing the need for frequent battery replacements.

- **Battery Operated**
- Powered by batteries, these lights are not constrained by electrical outlets, giving you the flexibility to place them wherever you need without worrying about power sources.

Motion Sensor Lights

- The magnetic strip enhances the mounting options, allowing you to attach the lights to metal surfaces effortlessly. This feature expands the range of possible applications for the lights.
- Illuminate dark areas such as stairs and closets, promoting safety by preventing accidents and making it easier to navigate in low-light conditions.
- Some models may offer adjustable settings for motion sensitivity and duration of illumination, allowing you to customize the lights based on your preferences and specific needs.
