

Quick Sense LED Under Cabinet Lighting Wireless, 2000mah Motion Sensor Lights Indoor 3 Color Temperatures Dimmable Rechargeable Closet Lights Motion Sensored Stick On Magnetic

About this item

- **Wireless Design with 2000mAh Battery:** Eliminates the need for complicated wiring or frequent battery changes, ensuring a clutter-free and easy installation. The robust battery ensures prolonged usage between charges, making it ideal for high-traffic areas.
- **Innovative Motion Sensor Technology:** Activates the light automatically when movement is detected within its range, providing energy efficiency and hands-free illumination, especially useful during nighttime or in dark spaces.
- **Three Adjustable Color Temperatures:** Offers the flexibility to switch between cool, neutral, and warm white tones, allowing users to set the desired ambiance and mood for various applications, be it task lighting or ambient glow.
- **Dimmable Brightness Settings:** Ensures that users can customize the light intensity to suit their preferences, whether they require bright illumination for detailed tasks or a soft glow for relaxation.
- **Easy-to-Install and Versatile Application:** Comes with a stick-on magnetic backing, making it simple to attach to any surface without damaging it. Perfect for under cabinets, closets, counters, and other spaces in need of targeted lighting.

• Product description

- The Quick Sense RMSL02 is a highly versatile and practical lighting solution designed for indoor spaces. Featuring 72 bright LED lights, these under-cabinet lights provide ample illumination for various applications such as closets, cabinets, and other dimly lit areas. What sets these lights apart is their built-in motion sensor, which detects movement and instantly activates the lights, ensuring that you have light exactly when you need it, without the hassle of searching for a switch. With three selectable color temperatures, you can customize the lighting to suit your preference and needs. The dimmable feature allows you to adjust the brightness to create the perfect ambiance. These lights are wireless and rechargeable, thanks to the 2000mAh battery, providing long-lasting illumination while saving on energy costs. They are easy to install with their stick-on and magnetic design, allowing you to place them virtually anywhere. Whether it's for convenience, safety, or enhancing the aesthetics of your space, the Quick Sense RMSL02 offers a brilliant and user-friendly lighting solution.
